Help Us Put The Art in STEAM!

My students need various art supplies to create paper circuits in STEM class. We need yardstick, tape and more.

My Students

As a STEM teacher in a Title I school, I find my students are faced with a multitude of challenges both in and out of the classroom.

Unfortunately, the struggle with basic needs like shelter, food, and clothing has placed a heavy burden on the minds of a majority of the students. However, they all have big dreams of success, of going to college and becoming productive citizens.

Ms. Colin

Grades 3-5

Kay Carl Elementary School
Las Vegas, NV

Nearly all students from low-income households ?

Although my students have a strong desire to learn and are very hard working, a deficit they possess as a whole group is the background experiences with creative design and hands-on experiences that can be provided with the addition of ART in STEM class.

It is my wish to provide my students with opportunities that will allow them the ability to stretch their creative thinking and challenge their design and problem-solving skills.

My Project

As a K-5 STEM teacher, I am currently looking for ways to add art into my classroom to create a world of STEAM.

We need the requested copper tape, LED's, batteries, colored cardstock paper, and markers to create paper circuits.

There is nothing better than seeing the pure joy on a child's face when they connect the copper tape, batteries, and an LED and create an amazing circuit.

With these various art supplies, my students will be able to design, create, and explore various ideas, while adding light to their personal artwork. Paper circuits blend art materials with electronic components to engage learners.

Donations to this project are now being matched, thanks to support from An Anonymous Arts Funder. Every child should have access to essential art materials and experiences. An education in the arts makes children well-rounded, engaged, and active citizens of the world. This project has been supported in an effort to ensure that all students gain from the many benefits that arts education provides.
